As any true American, I love my country because it is my native land the land of my fathers; America, the land of unselfishness, high ideals, opportunities and freedom.

American spirit that has been shown to be able to meet any emergency in the world war and even every lay of our lives is the foremost rea-son why I love America. The "officer spirit" that differentiates all americans in the most dif-ficult crisis in domestic calamity, in shipwreck and on the battlefield is the spirit that makes America in-

the spirit that makes America invincible.

The bomb explosion in Wall street several days ago served to show once more that this spirit, has not been lost. Before the greenish-yellow smoke from the blast that spread death and deadly injury had cleared away, rescuers were on the run to the scene. The moment of panic passed quickly and there were many cases of quick work and thought.

The wretches who try to terrorize America will realize sooner or later that although slow to anger, she is terrible in wrath.

Let us give the best that is in us to make America the hope of a struggling world.

OXFORD, Miss., Nov. 4.-Summary expulsion of four students. three of whom were star football players, suspension of one other and generating of feeling that may be followed by wholesale resignations among the student body, were the developments today of the board meet ing at which an investigation of the uprising here Oct. 27 was made. On the latter date a group of students burned Gov. Russell, chairman of the board, in effigy following an order which banned dancing at the school.

Expulsion of the football men, on whom dependence was placed to win the annual contest with Mississippi A, and M, college Saturday, has served to increase the ill feeling. The players expelled were Barbour, quarterback: Lake, right halfback, and Farmer, right guard. Mahon, tackle, drew a 30-day suspension. The other student, Lucas, was not a member of the football squad.

All three members of the team leaving the school were members of the dance committee. When questioned before the board they declined to either deny or affairm being present or participating in the burning.

That many resignations from the school will follow seems probable. Several were to leave today while others are alleged to be making plans for quitting in a few days.

The board of trustees declined to raise the dancing ban and commending the suspensions. Further than this they started a vigoreus. Expulsion of the football men, on
